International Graduate Trainee Program (Industrial or Mechanical Engineering)

All locations • **Full-time** • **Permanent position**

In the automotive industry, we are technologically the world's leading manufacturer of high-strength fasteners. We set standards in the fields of innovation, quality, and profitability. In reliable and long-term partnerships with our customers, we jointly develop custom solutions for the complex requirements of the future. At home in the world's major automotive regions - Europe, America and Asia - we are successful as an independent family-owned company with 3,300 employees at 19 locations and continue to grow sustainably.

Would you like to inspire customers with enthusiasm? Become part of our dedicated team.

Your Program

- Assignments in up to four countries worldwide, four to five months each
- International project work and integral part of local teams during assignments in Industrial and/or Mechanical Engineering and e.g. Digitalization
- International trainee group with responsibility for specially designated projects and regular off-the-job trainings
- Building a wide personal network within our company
- Advancing your professional, social and methodic competence by working in different teams and locations
- Program starts on July 1, 2023 and lasts for 18 months
- Unlimited contract right from the start and exciting opportunities to further advance your career at KAMAX after completing the program

Your Profile

- Excellent academic track record in the field of industrial or mechanical engineering (focus on metal processing/ cold forming is a plus) and will have recently graduated with a university degree at program start
- Preferably 3 months of relevant work experience (e.g. internship)
- Preferably 3 months abroad (e.g. studies or internships)
- Open minded, strong desire and the flexibility to work internationally
- Ability to think and act in complex structures
- Strong can-do spirit and a high sense of responsibility
- Inspiring team player with outstanding communication skills
- English fluency, knowledge of further languages is welcome

Our Offer

A promising professional future that you can help shape, with your ideas and commitment to first-class results. Our range of tasks offer diverse topics, a high degree of personal responsibility and a great deal of creative freedom. At KAMAX, you will find clearly defined processes and efficient decision making structures. We plan long-term – not only in terms of locations and machinery. Therefore, we invest in your individual development and enable personal flexibility.

Please apply in English and check the job postings on our website for application rounds.

*We are looking forward
to your application*
